

The PGA Staff at Green Hill Yacht & CC would like to help you build a better swing and game for yourself in 2011.

Playing better golf comes from proper practice, playing smart golf, and good course management. Our duty as your teaching professionals is to give expert instruction to enhance your knowledge and skills as a player. You can develop a solid practice routine that will benefit your entire game! It is very easy to fall into bad practice and playing habits that impede progression in your game. Set a realistic goal this season and receive the instruction needed to break all those bad habits, **TODAY!**

The driving range and practice greens should play a key role in your golfer development. **BETTER** swings mean **BETTER** scores. *Personal instruction is your first step to a better game.*

With a **GOOD ATTITUDE** and **PRACTICE**, you can develop the game you always wanted. Don't let another season fade away!

What is the best way for you to learn to play better golf? One lesson? Five? Ten? The answer depends on **WHAT YOU WANT TO ACCOMPLISH!**

If you only want one lesson, we will certainly be available to do so. But, to achieve the best enjoyment from the game, seriously consider the longer program offerings.

- Can you learn the piano in one lesson?
- Can you learn a new language in one lesson?
- Did you learn anything that is a "habit" overnight?

Why would golf be any different?

How good can you be?

Custom Club Fitting

Finding a player's correct specifications is a very important element in selecting new clubs and it enhances the learning process. During the fitting we will determine: club length, loft, lie angles, shaft type, shaft flex, grip type, and grip size.

Call or stop by the Golf Shop for details.

Mike Callender, PGA PGA Head Professional

Mike Callender, PGA is the PGA Head Professional at Green Hill Yacht & CC. He has been in the golf business for 11 years. He has taught a wide range of players including juniors, women, men, and seniors.
